QUATERNARY GEOLOGY

LIST OF MAP UNITS

GLACIAL MELTWATER DEPOSITS - late Holocene, late Wisconsinan
Idaho Falls Sand and gravel deposits
Klamath/Glacial Site
Deep Trench
Thaw
Esker
Glacial Meltwater Deposits
Explanation of Map Symbols

EXPLANATION

Quaternary Geology is the study of the earth's geologic, historical, and cultural history. The Quaternary Period is the most recent geological epoch and includes the Pleistocene Epoch and the Holocene Epoch. These data are a beta product intended for research and educational use and include maps of surficial deposits, natural resources, and the interpretation of the landscape.
