DATA SOURCES

CONTOUR DATA - Derived from a statewide 10-foot Digital Elevation Model (DEM) and edited to fill in data gaps with interpolation

STREET DATA - Based on TeleAtlas copyrighted data

BASE MAP 2000 - All data is based on 1:24,000 scale USGS topographic maps and includes roads, airports, and hydrography. Base map data is no longer current and complete.

INFO MAP 2005 - All data is based on 1:24,000 scale USGS topographic maps, shows and includes roads, airports, and hydrography. Base map data is no longer current and complete.

This map replaces a similar contour map of Bethany. This map provides a useful tool for the study of topography, property development, and other uses. The map's accuracy is approximately 3 feet on the ground.
