MAP PREPARED BY flavourmap.com May 2011.

CONTOUR MAP
Franklin, CT

EXPLANATION
Contour lines are used to denote elevation above sea level. This map displays 20 foot contour lines based on Connecticut LiDAR data for the year 2006. This information is only suitable for general planning and informational purposes. It is not intended for exact determinations of elevation where a survey is normally required, or for detailed engineering, building, or design purposes. The Connecticut LiDAR dataset for 2006 captured ground elevation over 20 feet with horizontal accuracy of approximately 3 feet on the ground.

DATA SOURCES
- LAND DATA - Distribution by LiDAR coverage. The Connecticut LiDAR Digital Elevation Model (DEM) surface based data.
- Base map digital spatial data shown on this map.
- Connecticut LiDAR data is compliments of the Land Use Education and Research (CLEAR) created from the Connecticut LiDAR data.
- Street data is compliments of the Connecticut LiDAR data.
- Base map digital spatial data shown on this map.
