This map identifies parcels of land owned or leased by the Connecticut Department of Energy and Environmental Protection. The map includes state parks, recreation areas, wildlife areas, and other protected lands. It is used for planning and management purposes, as well as for public education about the state's natural resources. The map is updated regularly to reflect changes in land ownership and use. It can be accessed online at http://www.cteco.uconn.edu for additional information and to view the map at its original dimensions. Printing this map at a scale greater than 1:26,250 is not recommended due to the small size of the features. The map was prepared by the Connecticut Department of Energy and Environmental Protection in July 2014.
