EXPLANATION

This map depicts property that the DEEP owns or controls, on or off State lands. It includes property within 300 feet of any State park and State park area of recreational use, as well as State forest, State park, or State park area of recreational use. The map also includes property within 300 feet of any State forest or State park that is not State lands. All DEEP-owned property is meant to be included on this map, regardless of whether it is shown. The map is generated using a geographic information system (GIS) database, which includes orthophotos and aerial photography data.

DATA SOURCES

DEEP PROPERTY databases, including GIS databases and orthophotos and aerial photography data.

The information is current as of June 2014.
