EXPLANATION

This map displays 2006 National Agricultural Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, fast on 1.39 (1 meter) aerial surveys taken on July 13th and 15th and August 3rd, 15th, 14th, or 16th, depending on the area. The statewide mosaic is not color balanced as visual differences between individual aerial images are not controlled. This will cause differences in the range and intensity of colors depending on the area viewed. The location and slope of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major roads, town boundaries, railroads, and ferry crossings are displayed yet may not match the locations of such features in the orthophotos. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - Imagery Provided by the National Agricultural Imagery Program, NAIP, a part of the USDA’s Farm Service Agency through the Aerial Photography Field Office in Stillwater, Minn.

BASE MAP DATA - All data is based on 1:24,000 scale and displays geographic names, places and their symbols, town boundaries, railroads, and airports. Base map data is neither current nor complete. Street data is based on TeleAtlas copyrighted data.

MAP AND DIGITAL DATA - Visit the CT ECO website for this map and a variety of others in PDF format. Visit the CT DEP website to download the base map digital spatial data shown on this map.

Map prepared by CT DEP December 2010.
