This map displays 2006 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, last on, 1.39 feet (1 meter) aerial survey taken on July 16th and 17th and August 5th, 2006, in the Lambert Conformal Conic Projection, State Plane Coordinate System of 1983, Zone 3526. The location and shape of features in other individual input images are not corrected. This will create mosaic is not color balanced so tonal imbalances between aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, US routes, state routes, airports, and railroads are displayed yet may not match the locations of such features in the orthophotos. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

EXPLANATION

DATA SOURCES

ORTHOPHOTOGRAPHY - Imagery provided by the National Agriculture Imagery Program (NAIP), a part of the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.

BASE MAP DATA - All data is based on 1:24,000 scale and displays geographic names, places, and their symbols, town boundaries, railroads, and airports. These data are neither current nor complete. Street data is based on USGS 1:24,000 orthogonal data.

MAPS AND DIGITAL DATA - Visit the CT DEP website for this map and a variety of others in PDF format. Visit the CT DEP website to download the base map digital spatial data shown on this map.
