This map displays 2006 National Agriculture Imagery Program (NAIP) orthophotography for the Town of Sherman, CT. It is a natural color, true color, 1:3,799 scale (1 meter) aerial survey taken on July 14th and 15th and August 14th, 15th, 16th, depending on the area. The nationwide mean is 1 meter horizontal and 1 meter vertical accuracy between individual aerial images is not controlled. This will cause differences in the range and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, US routes, state routes, streets, railroads, airports, hospitals, educational facilities, train stations, and ferry crossings are displayed yet may not match the accuracy and data collection dates. Important geographic locations and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES
ORTHOPHOTOGRAPHY - Digitally provided by the National Agriculture Imagery Program, (NAIP), a part of the USDA Farm Service Agency through the Aerial Photography Field Office in Stow, MA.
BASE DEP DATA - All data is based on 1:24,000 scale and displays geographic names, places and their spatial, town boundaries, railroads, and (maps). Some map data is in layers are not complete. These data based on USGS 1:24,000 data.
MAPS AND DIGITAL DATA - Visit the CT DEP website for this map and a variety of others in PDF format. Visit the CT DEP website for more information on the base map digital spatial data shown on this map.
