This map displays 2006 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, leaf on, 3.39 feet (1 meter) aerial survey taken on July 16th and 17th and August 5th, 2006 Orthophotography (Northwest) of the area viewed. The location and shape of features in other individual input image is not corrected. This will create mosaic is not color balanced so tonal imbalances between aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed yet may not match the accuracy and data collection dates. Street-level data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed yet may not match the major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed yet may not match the GIS layers will not exactly match information shown in the orthophotos. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and their symbols, town boundaries, railroads, and airports. Base map data is neither current nor complete. Street-level data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed yet may not match the locations of such features in the orthophotos.
