This map displays 2006 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, leaf on, 3.39 feet (1 meter) scale orthophotograph taken on July 18th and 19th and August 5th, 15th, 14th, or 16th, depending on the area. The statewide mosaic is not color balanced so tonal imbalances between individual image data is not corrected. This will cause differences in the range and intensity of colors depending on the area viewed. The location and slope of features is otherwise accurate. 

DATA SOURCES

ORTHOPHOTOGRAPHY - Digitally provided by the National Agriculture Imagery Program (NAIP) as part of the USDA's Farm Service Agency through the Aerial Photography Field Office in St. Louis City.

BASE DEP DATA - All data is based on 1:24,000 scale and displays geographic names, places and their symbols, town boundaries, railroads, and airports. Base map data is neither current nor complete. These data are derived from U.S. Geological Survey data.

MAPS AND DIGITAL DATA - Visit the CT DEP website for this map and a variety of others in PDF format. Visit the CT DEP website to download the base map digital spatial data shown on this map.
