This map displays 2006 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, last on 1,379 feet (1 meter) scale survey taken on July 3rd and 17th and August 5th, 15th, 16th or 16th, depending on the area. The statewide mean is set at color brightness on total surface changes between individual year maps is not controlled. This will change depending on the time and intensity of colors depending on the area viewed. The location and slope of features in other GIS layers may not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, U.S. routes, state routes, private railroads, and ferry crossings are displayed yet may not match the locations of such features in the orthophotographs. Also shown are airports, hospitals, educational facilities, train stations, and census boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES
ORTHOPHOTOGRAPHY - Imagery provided to the National Agriculture Imagery Program (NAIP), a part of the USDA Farm Service Agency through the Aerial Photography Field Office in Hartford, CT.
BASE DEP DATA - All data is based on 1:24,000 scale and displays geographic names, places and their symbols, civic boundaries, railroads, and airports. Some map data is weather dependent not completely displayed due to weather and topographical data.
MAPS AND DIGITAL DATA - Visit the CT ECO website for this map and a variety of others in PDF format. Visit the CT ECO website to download the base map digital data shown on this map.
