DATA SOURCES

ORTHOPHOTOGRAPHY - National Agricultural Imagery Program (NAIP), is provided by the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.

BASE MAP DATA - All data is based on 1:24000 scale and displays geographic names, places and their symbols, town boundaries, airports, and highways. Base map data is neither current nor complete. Street data is based on TeleAtlas copyrighted data.

EXPLANATION

This map displays 2008 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, 1:39 feet (1 meter) aerial survey taken on July 3rd, 10th, 11th, 15th, and 16th. The statewide mosaic is not color balanced so tonal imbalances between individual collection dates. Street-level data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are exactly match information shown in the aerial photography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries.
