

2008 Color Infrared Orthophoto Woodstock, CT (Southwest)

This map displays 2008 National Agriculture Imagery Program on the area viewed. The location and shape of features in other GIS (NAIP) infrared orthophotography for the State of Connecticut. It is a color infrared, leaf on, 3.39 feet (1 meter) aerial survey taken on July 3rd, 10th, 11th, 15th, and 16th. This infrared orthophotography imbalances between individual input images is not corrected so differences are present in the range and intensity of colors depending

layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, US provides many services, such as observing crop and vegetation conditions as well as supporting identification and mapping of habitat areas. The statewide mosaic is not color balanced so tonal facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agricultural Imagery Program, (NAIP), is provided by the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City. BASE MAP DATA - All data is based on 1:24,000 scale and displays geographic names, places and their symbols, town boundaries, airports, and railroads. Base map data is neither current nor complete.
