EXPLANATION

This map displays 2008 U.S. Geological Survey (USGS), High Resolution Orthoimagery for the Newtown, Fairfield, and New Milford area labeled. The image and intensity of colors depending on the area viewed. The location and change of features in other OHR layers will not exactly match information shown in the orthophotography primarily due to differences in spatial accuracy and data collection dates. Minor misalignments such as minor changes in roads and building locations may be displayed but the locations of each feature may differ from the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - Provided by the U.S. Geological Survey.
BASE MAP DATA - All data is based on 1:12,000 scale and displays geographic names, places and their symbols, town boundaries airports, and others. These data are subject to current use or changes. Visit the CT DEP website to download the base map digital spatial data shown on this map.
