This map displays 2009 Capitol Region Council of Governments (CRCOG) orthophotography. The imagery is very high resolution, (3 inches, (0.25 ft) at 1:1,200 (1 inch = 100 feet) scale. The location and shape of features in the orthophotography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, US routes, interstates, streets, railroads, and ferry crossings are displayed but may not match the locations of such features on the orthophotography. Also shown are important geographic locations and waterbodies are labeled.

Important geographic locations and waterbodies are labeled. This map is not colorfast.

DATA SOURCES
ORTHOPHOTOGRAPHY - The orthophotography for this map were created by the Capital Region Council of Governments (CRCOG) and the Environmental Office of Policy Management.
BASE MAP DATA - All data is based on 1:24,000 scale and displays geographic names, places and other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, US routes, interstates, streets, railroads, and ferry crossings are displayed but may not match the location of such features on the orthophotography. Also shown are airports, highways, educational facilities, towns stations, and town boundaries. Important geography locations and waterbodies are labeled.
