This map displays 2009 Capitol Region Council of Governments (CRCOG) orthophotography. The imagery is very high-resolution, 0.5 meter (1:24,000 scale) digital orthophoto imagery (DOIs) of the towns of Andover, Avon, Bloomfield, Bolton, Canton, East Granby, East Hartford, East Windsor, Enfield, Farmington, Glastonbury, Granby, Hartford, Berlin, Mansfield, Marlborough, Newington, Plainville, Rocky Hill, Simsbury, Suffield, Tolland, Vernon, West Hartford, Wethersfield, Windsor, and Windsor Locks. The imagery was taken during the Spring of 2009. The high-resolution of the imagery allows for a map of comprehensive, detailed planimetric data. It is intended to support mapping at 1:1,200 scale (1 inch = 100 feet) scale. The locations and shapes of features of interest are more accurately represented in the orthophotography primarily due to differences in spatial accuracy and data collection issues. Street-level data such as major intersections, US routes, interstates, week, railroads, and ferry crossings are displayed but may not match the locations and shapes of features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES
Orthophotography: Orthophotography was acquired by the Capital Region Council of Governments (CRCOG) and the Connecticut Office of Policy Management.
BASE MAP DATA: All data is based on 1:24,000 scale and displays geographic names, places, and their symbols, town boundaries, streets, and railroads. Base map data in unlabeled areas are completed. More data is based on Esko's copyrighted.
WATER RELATED DATA: Visit the CT DEP website for this map and a variety of others in PDF format. Visit the CT DEP website to download the base map digital data used on this map.
