The map displays 2009 Capital Region Council of Governments (CRCOG) orthophotography. The imagery is very high-resolution, (3 inches, (0.25 ft) per image pixel), color, leaf off and covers the towns of Andover, Avon, Bolton, Canton, East Granby, East Hartford, East Windsor, Manchester, Marlborough, Newington, Plainville, Rocky Hill, Simsbury, Bloomfield, Bolton, Canton, East Granby, East Hartford, East Windsor, Hartford, Hebron, Mansfield, Marlborough, Newington, Pardeeville, Rocky Hill, Simsbury, Southington, South Windsor, Tolland, Vernon, West Hartford, Wethersfield, Windsor, and Windsor Locks. The imagery was taken during the Spring of 2009. The high-resolution of the imagery allows for a map of comprehensive, detailed planimetric data. It is intended to support mapping at 1:3,200 scale (10 ft) base scale. The location and shape of features is derived from orthophotography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major intersections, US routes, interstates, streets, railways, and ferry crossings are displayed but may not match the location of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

**DATA SOURCES**
- The imagery is from the Capital Region Council of Governments (CRCOG) and the Connecticut Office of Policy Management.
- **BASE MAP DATA** - All data is based on a 1:24,000 scale and displays geographic names, places and their symbols, river boundaries, airports, and railroads. The base map data in multiple layers are not complete. More data is based on Esri data copyright.

**MAPS AND DIGITAL DATA** - Visit the CT DEP website for this map and a variety of others in PDF format. Visit the CT DEP website to download the base map digital data source for this map.
