This map displays 2010 National Agricultural Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a single color, true color, 3.59-foot (1 meter) aerial survey taken in the Spring of 2010. The statewide mosaic is not color balanced and shape of features in other GIS layers will not exactly match intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match so tonal imbalances between individual input image is not corrected. This will cause differences in the range and intensity of colors depending on the area viewed. Important geographic locations and landmarks are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY: National Agricultural Imagery Program (NAIP), is provided by the USDA's Farm Service Agency through the National Photographic Field Office in Salt Lake City.

BASE MAP DATA: All data is based on U.S. Census and displays geographic entities, places and their symbols, state boundaries, and sub-basins. This map data is neither current nor complete. Street data is based on: "thick/thin" topographic data.

MAPS AND DIGITAL DATA: Visit the CT DEP website for the map and a variety of other in addition. The CT DEP authors are developers of the base map digital topographic data used on this map.
