This map displays 2010 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, 5.59 foot (1 meter) aerial survey taken in the Spring of 2010. The orthophoto mosaic is not color balanced so total brightness between individual input images is not constant. This will cause differences in the range and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

**DATA SOURCES**

**ORTHOPHOTOGRAPHY** - National Agricultural Imagery Program (NAIP), is provided by the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.

**BASE MAP DATA** - All data is based on 1:24,000 scale and displays geographic names, places and other symbols, town boundaries, signature, and topography. Base map data is neither current nor complete. Street data is based on Tel/dial-digitized data.

**MAPS AND DIGITAL DATA** - Visit the CT DEP website for this map and a variety of others in PDF format. Visit the CT ECO website for this map and a variety of others in PDF format.

**EXPLANATION**
