This map displays 2010 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a digital color, 3.59-foot (1 meter) aerial survey taken in the Spring of 2010. The orthophotomosaic is not color balanced, so color enhancements between individual input images is not corrected. This will cause differences in the range and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed but may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and landmarks are labeled.

DATA SOURCES
ORTHOPHOTOGRAPHY - National Agricultural Imagery Program (NAIP). A product of the 2010 USDA Farm Service Agency through the Aerial Photography Field Office in Salt Lake City, Utah.
BASE MAP DATA - All data is based on U.S.D.A. soils and digital geographic names, places and their locations, town boundaries, streets, and railroads. These map data is neither current nor complete. Street data is based on mile-to-mile-surveyed data.
MAPS AND DIGITAL DATA - Visit the CT DEP website for this map and a variety of others in PDF format. Visit the CT DEP website to download the base map digital spatial data shown on this map.

2010 Color Orthophoto Windsor, CT (North)

EXPLANATION

Map prepared by CT DEP, January 2011. Map is not suitable for PrintedLegend Light and rotation.
