This map displays 2010 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, false color, 3.75-foot (1 meter) aerial survey taken in the Spring of 2010. The intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major interstates, US routes, state routes, streets, railways, and ferry crossings are displayed but may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES
ORTHOPHOTOGRAPHY: National Agriculture Imagery Program, (NAIP), is provided by the USDA, Farm Service Agency through the National Agricultural Imagery Program Office in Salt Lake City, UT.
BASE MAP DATA: All data is based on NAIP 2010 aerial and displays geographic names, places and their symbols, town boundaries, airports, and railroads. Data map data is within several sub-completes. Street data is based on NAIP 2010 orthophotography data.
