This map displays 2010 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a "true color" image, that is, the colors are intended to be similar to what would visually be seen. The "true color" image is not color-balanced so tonal imbalances between individual input images are not corrected. This will cause differences in the range and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and date collection dates. Street-level data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed but may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES
ORTHOPHOTOGRAPHY - National Agriculture Imagery Program (NAIP), as provided by the U.S. Department of Agriculture, through the National Agriculture Imagery Program Office at Salt Lake City, UT.
BASE MAP DATA - All data is based on 3-DEG scale and displays geographic names, places and their symbols, roads, boundaries, hydrology, and topography. Data used data is neither current nor complete. Street data is based on TeleAtlas copyrighted data.

MAPS AND DIGITAL DATA - Visit the CT DEP website for this map and a variety of others or FMS Home. Visit the CT DEP website to download the base map digital topography data shown on this map.

Map prepared by CT DEP, January 2011. Map is not validated. Printed and  published with the following Information Disclaimers:

- Lambert Conformal Conic Projection
- State Plane Coordinate System of 1983, Zone 3526
