DATA SOURCES

This map displays 2010 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, leaf-on, 3.39 feet (1 meter) aerial survey taken in the Spring of 2010. The statewide mosaic is not color balanced so tonal imbalances between individual input image is not natural color, leaf on, 3.39 feet (1 meter) aerial survey taken in the Spring of 2010. The statewide mosaic is not color balanced so tonal imbalances between individual input image is not complete. Street-level data such as major interstates, US routes, state routes, avenues, railroads, and freeway, crossings are displayed but may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

EXPLANATION

This map displays 2010 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, leaf-on, 3.39 feet (1 meter) aerial survey taken in the Spring of 2010. The statewide mosaic is not color balanced so tonal imbalances between individual input image is not complete. Street-level data such as major interstates, US routes, state routes, avenues, railroads, and freeway, crossings are displayed but may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agricultural Imagery Program (NAIP), is provided by the USDA through the Farm Service Agency. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

Protect from light and moisture.

Map is not colorfast.
