This map displays 2010 National Agriculture Imagery Program (NAIP) aerial orthophotography for the State of Connecticut. It is a color infrared, false color infrared, aerial orthophotography taken during the Spring of 2010. It is color infrared, false color infrared, aerial orthophotography provides many different land cover areas, such as urban, agricultural, vegetation, and water. The color-infrared imagery is not corrected for differences in the range and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown on the aerial orthophotography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major streets, 1/2 mile, state roads, interstate highways, and city crossings are displayed but may not match the locations of each feature on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES
ORTHOPHOTOGRAPHY: National Agriculture Imagery Program (NAIP) is provided by the USDA Farm Service Agency through the Federal Geographic Data Committee (FGDC). 2010 NAIP DATA: - This map is not suitable for legal and surveying purposes.

Scales and Lengths - Varies for CT DEP symbol to the map and a variety of colors in PDF format. Visit the CT DEP website to download the base map digital data shown on this map.
