

2010 Color Infrared Orthophoto Woodstock, CT (Southeast)

(NAIP) infrared orthophotography for the State of Connecticut. It is a color infrared, leaf on, 3.39 feet (1 meter) aerial survey taken during differences in spatial accuracy and data collection dates. Street-level the Spring of 2010. This infrared orthophotography provides many services, such as observing crop and vegetation conditions as well as supporting identification and mapping of habitat areas. The statewide mosaic is not color balanced so tonal imbalances between individual input images is not corrected so differences are present in the range and intensity of colors depending on the area viewed. The location labeled.

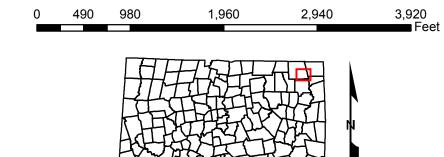

EXPLANATION

This map displays 2010 National Agriculture Imagery Program and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to boundaries. Important geographic locations and waterbodies are

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agricultural Imagery Program, (NAIP), is provided by the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.
