This map displays 2012 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a "true" color, fixed exposure, 1.5" x 1" (1 meter) aerial survey taken in the Summer of 2012. The software process is not color balanced so tonal imbalances between individual input images is not corrected. This will cause differences in the range and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match the locations in the orthophotography. Also shown are airports, highways, educational facilities, main streets, and town boundaries.

Important geographic locations and entities are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agriculture Imagery Program (NAIP) is provided by the USDA Farm Service Agency through the National Agricultural Imagery Program Office in South Lakeland, FL.

BASE MAP DATA - Based on data originally from 1:24,000 scale USGS 7.5 minute topographic quadrangle maps published between 1949 and 2007. Includes political boundaries, roads, airports, geographic names and geographic places. Roads and river names are from Title 43 U.S.C. copyrighted into these map document under automatic copyright.

MAPS AND DIGITAL DATA - Visit the CDEP website for this map and a variety of others in PDF format. Visit the CT DEEP website to download the free map digital spatial data shown on this map.
