

2012 Color Orthophoto Goshen, CT (North)

EXPLANATION

(NAIP) orthophotography for the State of Connecticut. It is a differences in spatial accuracy and data collection dates. natural color, leaf on, 3.39 feet (1 meter) aerial survey taken in Street-level data such as major interstates, US routes, state the Summer of 2012. The statewide mosaic is not color balanced so tonal imbalances between individual input image is may not match the locations of such features on the not corrected. This will create differences in the range and orthophotography. Also shown are airports, hospitals, intensity of colors depending on the area viewed. The location educational facilities, train stations, and town boundaries.

This map displays 2012 National Agriculture Imagery Program information shown in the aerial photography primarily due to routes, streets, railroads, and ferry crossings are displayed yet and shape of features in other GIS layers will not exactly match

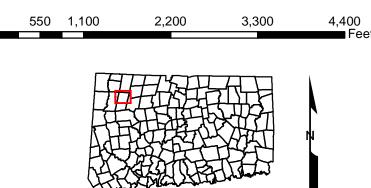

Important geographic locations and waterbodies are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agricultural Imagery Program, (NAIP), is provided by the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.

BASE MAP DATA - Based on data originally from 1:24,000-scale USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, geographic names and geographic places. Streets and street names are from Tele Atlas® copyrighted data. Base map information is neither current nor complete.
