EXPLANATION

This map displays 2012 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a retail color, 1:5,799 feet (1 meter) aerial survey taken in the Summer of 2012. The color is not color balanced so tones inferred between various objects depicted on the orthophotography. This will cause differences in the shade and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection times. Street-level data such as major interstates, US routes, main streets, avenues, railroads, and ferry crossings are displayed, but may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, main streets, and town boundaries. Important geographic locations and boundaries are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agriculture Imagery Program, (NAIP) is provided by the USDA’s Farm Service Agency through the aerial photography field office in Wall Lake, IA.

BASE MAP DATA - Based on data originally from 1:24,000 scale USGS 7.5 minute topographic quadrangle maps published between 1958 and 1998. It includes political boundaries, waterbodies, airports, geographic names, and geographic places. Roads and parcel names are from Title I/Title X "topologically" and raster orthophoto data. These map information rights reserved not copyright.

MAPS AND DIGITAL DATA - Visit the CT ECO website for this map and a variety of others to download. Visit the CT ECO website to download the free map digital orthophoto data shown on this map.
