This map displays 2012 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a normal color, false color, 5.79-foot (1 meter) aerial survey taken in the Summer of 2012. The false color image is not color balanced so color differences between individual objects may not be apparent. This will cause differences in the range and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers may not exactly match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, major streets, and town boundaries. Important geographic locations and water bodies are labeled.

DATA SOURCES
ORTHOPHOTOGRAPHY - National Agricultural Imagery Program (NAIP) is provided by the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.
BASE MAP DATA - Based on data originally from a 1:24,000-scale USDA 7.5-minute topographic quadrangle maps published in 1994 and 2000. Includes political boundaries, watercourses, major roads, and place names are from the Atlas of U.S. Topographic Quadrangle data. These map data are public domain information provided by the U.S. government.
MAPS AND DIGITAL DATA - Visit the CT ECO website for this map and a variety of others in PDF format. Note the CT ECO website to download the free map digital data files shown on this map.
