This map displays 2012 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a "normal" color, true on 5.79 feet (1 meter) aerial survey taken in the Summer of 2012. The aerial orthophotography is not color balanced so tonal imbalances between individual input image is not corrected. This will cause differences in the image and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection date. Street-level data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed yet may not match the locations of such features on the orthophotography. Also shown are airports, geographic names and geographic places. Streets and street names are from Tele Atlas® copyrighted data. Base map information is neither current nor complete.

DATA SOURCES
ORTHOPHOTOGRAPHY - National Agricultural Imagery Program, (NAIP), is provided by the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.
BASE MAP DATA - Based on data originally from 1:12,000 scale USDA 7.5 minute topographic quadrangle maps published between 1967 and 1968. It includes political boundaries, railroads, airports, geographic names and geographic places. Bound and detail names are from Title 14, United States Code. Arrows and scale symbols are from Title 14, United States Code. Arrows and scale symbols are from Title 14, United States Code.
