This map displays 2012 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is in a natural color, leaf on, 3.39 feet (1 meter) aerial survey taken in the Summer of 2012. The statewide mosaic is not color balanced so tonal imbalances between individual input images may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Street-level data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed yet may not match the locations of such features on the orthophotography. Important geographic locations and waterbodies are labeled.

EXPLANATION

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agricultural Imagery Program (NAIP) is provided by the USDA’s Farm Service Agency through the Aerial Photography Field Office in Salt Lake City. BASE MAP DATA - Based on data originally from 1:100,000 scale USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, geographic names and geographic places. Street and road names are from Tele Atlas® copyrighted data. This map information includes registered user data.

MAPS AND DIGITAL DATA - Visit the CT DEP website to download the base map digital spatial data shown on this map.
