EXPLANATION

This map displays 2012 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a normal color, false or 5.79 foot (1 meter) aerial survey taken in the Summer of 2012. The on-screen mosaic is not color balanced so visual differences between individual input images are not corrected. This will cause differences in the range and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection times. Street-level data such as major interstates, US routes, state roads, streets, railroads, and ferry crossings are displayed but may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and transects are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agriculture Imagery Program (NAIP) is provided by the USDA Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.
BASE MAP DATA - Based on data originally from 1:12,000 scale USDA 7.5 minute topographic quadrangle maps published historically. 2000 and 2010 Ortho images provided respectively. House and street names are from Title Acres® proprietary data. These map informations subject to interpretation and conversion.
MAPS AND DIGITAL DATA - Visit the CT ESD website for the map and a variety of other data in downloadable format. Visit the CT ESD website to download the free map digital orthophoto data on this map.
