This map displays 2012 National Agriculture Imagery Program (NAIP) orthophotography for the Town of Shelton. It is a normal color, false color, 5.79 feet (1 meter) aerial survey taken in the Summer of 2012. The mosaic mosaic is not color balanced so true brightness between individual input images is not correct. The true color differences in the image and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primary due to differences in spatial accuracy and data collection dates. Street-level data such as house numbers, U.S. routes, state routes, streets, railroads, and ferry crossings are displayed on may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

**DATA SOURCES**

ORTHOPHOTOGRAPHY: National Agriculture Imagery Program (NAIP), is provided by the U.S. Department of Agriculture through the National Agricultural Imagery Program Office in Richlands, VA.

**BASE MAP DATA:** Based on data originally from 1:24,000 scale USGS T series topographic quadrangle maps published between 1970 and 1990. Includes political boundaries, waterbodies, road names, contour lines, and stream center. Also includes white label text for roads, except for parks.
