This map displays 2012 National Agriculture Imagery Program (NAIP) orthophotography for the State of Connecticut. It is a natural color, fast on, 0.59 foot (1 meter) aerial survey taken in the Summer of 2012. This means that natural color, leaf on, 3.39 feet (1 meter) aerial survey taken in the summer of 2012. The location and shape of features in other GIS layers may not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection times. Street-level data such as major interstates, US routes, state names, railroads, and ferry crossings are displayed yet may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

**DATA SOURCES**

ORTHOPHOTOGRAPHY - National Agricultural Imagery Program, (NAIP) is provided by the USGS of Farm Service Agency through the Aerial Photography Field Office in Fort Belvoir, VA.

BASE MAP DATA - Base map data provided from 1:24,000 scale USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, geographic names and geographic places. Streets and street names are from Tele Atlas® copyrighted 1997-2012 OpenStreetMap contributors within current copyright.
