EXPLANATION

This map displays 2012 National Agricultural Imagery Program (NAIP) orthophotographs for the State of Connecticut. It is a natural color, fall-on, 3.39 feet (1 meter) aerial survey taken in the Summer of 2012. The images reveal true color, balanced so tonal imbalances between individual input image is not corrected. This workload differences in the image and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, railroads, and waterbodies. Important geographic locations and waterbodies are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agricultural Imagery Program (NAIP), is provided by the USGS's Farm Service Agency through the National Agricultural Imagery Program Office in St. Louis, MO.

BASE MAP DATA - Based on data originally from the 1:24,000 scale USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, water features, and airport data. All input sources are from Title 23A, "Agricultural Imagery Data Collection Program".

MAPS AND DIGITAL DATA - Visit the CT DEEP website for the map and a variety of other digital data. Visit the CT DEEP website to download the base map digital spatial data shown on this map.
