EXPLANATION

This map displays 2012 National Agriculture Imagery Program (NAIP) color infrared orthophotography for the State of Connecticut. It is a color infrared, leaf on, 3.39 feet (1 meter) aerial survey taken during the Summer of 2012. This infrared orthophotography provides map services, such as observing crop and vegetation conditions as well as supporting land parcel identification and mapping of habitats. The distribution of colors and intensity of colors depending on the area viewed. The location and shape of features in other GIS layers will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Street-level data such as major highways, US routes, state routes, streets, railroads, and ferry crossings are displayed but may not match the location of such features on the orthophotography. Also shown are airports, geographic names and geographic places. Streets and street names are from Tele Atlas ® labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY - National Agriculture Imagery Program, (NAIP), is provided by the USDA's Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.

BASE MAP DATA - Based on data originally from 1:24,000-scale USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, geographic names and geographic places. Streets and street names are from Tele Atlas ® copyrighted from the map organization and/or owned or compiled.

MAPS AND SERVICE LEVELS - Visit the CT DEP website for this map and a variety of other map services. Visit the CT DEP website to download this base map digital spatial data shown on this map.
