This map displays 2012 National Agriculture Imagery Program (NAIP) infrared orthoimagery for the State of Connecticut. It is a color infrared, false color, 5.99 foot (1.8 meter) aerial survey taken during the Summer of 2012. This infrared orthoimagery provides many services, such as observing crop and vegetation conditions as well as supporting identification and mapping of habitat areas. The statewide infrared orthoimagery is provided by USDA’s Farm Service Agency through the Aerial Photography Field Office in Salt Lake City. Data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed but may not match the differences in spatial accuracy and data collection dates. Street-level information shown in the aerial photography primarily due to copyrighted data. Base map information is neither current nor complete. 2012 Color Infrared Orthophoto Sharon, CT (Southeast)

DATA SOURCES
ORTHOPHOTOGRAPHY - National Agriculture Imagery Program (NAIP) is provided by the USDA’s Farm Service Agency through the Aerial Photography Field Office in Salt Lake City.
BASE MAP DATA - Based on data originally from 1:12,000 scale USGS 7.5 minute topographic quad sheets published between 1990 and 2012. It includes protected boundaries, roads, airports, geographic names and geographic places. Roads and street names are from State Atlas copyrighted from their original source as shown on this map.
MAPS AND GRAPHICS - You can request this map and a variety of others as PDF format. Print the CT DEP website to download the base map digital spatial data shown on this map.
