EXPLANATION

This map displays 2012 high-resolution orthophotography for the Town of Beacon Falls. It is a natural color, leaf-off, 1 foot (0.3 m) resolution aerial survey taken in the Spring of 2012. The location and shape of features in other GIS layers will not exactly match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, towns stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES

ORTHOPHOTOGRAPHY: Aerial imagery is provided through a partnership between Connecticut Department of Emergency Services and Public Protection (CDSEPP), the Connecticut Department of Transportation (CTDOT), and the National Oceanic and Atmospheric Agency (NOAA) along with the United States Geological Survey (USGS) providing support through project management, contract administration, and quality assurance/quality control (QA/QC).

BASE MAP DATA: Based on data acquired by the 1:12,000 scale/STATE 7.5 minute topographic, quads, aerial maps published between 1990 and 1996. The data includes buildings, roads, airports, geographic names, and geographic places. Owners and users sources are listed below.

BASE AND DIGITAL Data: Map data are from the town and a variety of others on FTF Liased. Visit the CT DEP website to download the base map digital data driven on this map.
