2012 Color Infrared Orthophoto
Leaf-Off
Beacon Falls, CT

EXPLANATION
This map displays 2012 high resolution infrared orthophotography for the State of Connecticut. It is a color infrared, leaf off, 1 foot (0.3-meter) aerial survey taken in the Spring of 2012. This infrared orthophotography provides many services, such as observing crop and vegetation conditions as well as supporting identification of mapping and GIS data.

The location and shape of features in other GIS items will not exactly match information shown in the aerial photography primarily due to differences in spatial accuracy and data collection dates. Structures data such as major interstates, US routes, state routes, streets, railroads, and ferry crossings are displayed but may not match the locations of such features on the orthophotography. Also shown are airports, hospitals, educational facilities, train stations, and town boundaries. Important geographic locations and waterbodies are labeled.

DATA SOURCES
ORTHOPHOTOGRAPHY - Aerial imagery is provided through a partnership between Connecticut Department of Emergency Services and Public Protection (DESPP), the Connecticut Department of Transportation (DOT), and the National Geospatial-Intelligence Agency (NGA) for the State of Connecticut orthophotography project. Further information can be found at the CT DEEP website (http://www.ct.gov/deep). Map prepared by CT DEEP, February 2013. Map is not colorfast. Please keep out of direct sunlight.

BASE MAP DATA - Based on data originally from 1:24,000 scale USGS 7.5 minute topographic quadrangle maps published by the U.S. Geological Survey (USGS). Additional data contributed by SourcePoint for Digital Geographic Information. Streets and highways were derived from RIS (Road Information System) maintained by the Connecticut Department of Transportation (DOT). Map is not colorfast. Please keep out of direct sunlight.

MAPS AND DIGITAL DATA - Visit the CT DEEP website for this map and a variety of others in PDF format. Visit the CT DEEP website to download the free map digital spatial data shown on this map.
