BASE MAP DATA - Based on data originally from 1:24,000-scale USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, geographic names and geographic places. Streets and highways are digitized from standard topographic quadrangle maps. Important geographic locations include airports, hospitals, educational facilities, train stations, and town management, contracting and quality assurance/quality control (QA/QC).
