Land or interest in land acquired to support and sustain non-facility or threatened species; or

Only parcels that meet the criteria of protected open space as in the Department of Environmental Protection’s Protected Open Space Act. The criteria for protected open space as defined in the act includes: land that is or was forested; land that has riparian or wetland habitat; and land that is or was in agricultural use.

USGS 7.5 minute topographic quadrangle maps published between 1949 and 1999 is not updated. These sources include maps created by the U.S. Geological Survey that show topographic features and parcel area. This map is intended to be printed at original size (48 x 36 in). For more information about the POSM project, contact the Department of Environmental Protection.

DATA SOURCES

PROTECTED OPEN SPACE - The data is based on information from several sources and compiled by the Department of Environmental Protection. These sources include: Connecticut Department of Agriculture and Resource, U.S. Fish and Wildlife Service, and the Nature Conservancy.
