MAPS AND DIGITAL DATA - Visit the CT ECO website for this map and 7.5 minute topographic quadrangle maps published between 1969 and 1992. These maps are from the USGS and are available statewide.

BASE MAP DATA - Based on the US Geologic Survey’s topographic quadrangle maps published between 1969 and 1992. They include political boundaries and important geographic places and names. Streets and street names are from Yale Mila copyrighted data. Base map information is neither current nor complete.

MAPS AND DIGITAL DATA - Visit the CT ECO website for this map and a variety of others. Visit the NRCS soils website for the soils data shown on this map. Visit the CT DEP website to download the base map digital spatial data shown on this map.

Q3 Flood Zone Data
Old Saybrook, CT

Explanation
The Q3 Flood Zone Data are derived from Flood Insurance Rate Maps (FIRMs). They offer floodplain management, mitigation and provide insurance information for the National Flood Insurance Program (NFIP). 100 Year Flood Zones indicate that there is 1 out of 100 chances that the area will be flooded every year, while 500 Year Flood Zones indicate that there is 1 out of 500 chances that the area will be flooded every year. NOTE: The Q3 Flood Zone Data is the best flood zone mapping data available statewide. However, it is dated and may not represent current flood zone mapping. It is available for all towns except Windham. More accurate flood zone mapping data may be available for this town from FEMA. Refer to the National Flood Hazard Layer (NFHL) Database, which supercedes the Q3 Flood Data. The NFHL Database is not available for every county.

Data Sources
Q3 FLOOD DATA- Provided by the Federal Emergency Management Agency (FEMA).

BASE MAP DATA - Based on data originally from 1:24,000-scale USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. These maps include political boundaries and important geographic places and names. Streets and street names are from Yale Mila copyrighted data. Base map information is neither current nor complete.
