The map is intended to guide the protected waters of the Nation under the Clean Water Act by identifying areas of the Nation that are of significant value due to their capacity for contributing essential ecosystem services. The areas depicted on the maps are not intended to be registered or authorized under the Clean Water Act. These areas are identified as wetlands under the Hydrophytic definition as defined in the Corps of Engineers Wetlands Delineation Manual—specifically, in the sections on HYDRIC SOILS. The information is neither current nor complete.

**LEGEND**

- **Hydric Soils**
- **Net Rating**

**EXPLANATION**

The map is based on public domain data provided by the U.S. Department of Agriculture, Natural Resources Conservation Service (NRCS) and the U.S. Army Corps of Engineers. It is intended for use by the public and should not be used as a basis for regulatory decisions. The map is provided "as is" without warranty of any kind, either expressed or implied.

**DATA SOURCES**

- U.S. Department of Agriculture, Natural Resources Conservation Service
- U.S. Army Corps of Engineers
