While this map shows the rating potentials for SSDS, to understand how these soils can be treated, the reader is encouraged to consult the report titled "Soil Systems Single Family Residences" prepared by the University of Connecticut. The reader is also encouraged to consult the DEP's publication "Soil Systems Single Family Residences" for detailed information on soil types, rating potentials, and disposal methods. The map is not colorfast and is not to be used for property line determination. It is intended to be used as a general reference tool for planning and not as a substitute for professional advice. The reader is encouraged to consult with a professional soil scientist for detailed information on soil types and disposal methods. The map is not to be used for property line determination. It is intended to be used as a general reference tool for planning and not as a substitute for professional advice.
