misunderstanding of the detail of mapping. For the most recent
by the USDA, Natural Resources Conservation Service (NRCS).

SOIL DATA - Soil map units shown on this map are from the 2007
wetland map units. Conversely, there may be Non-Wetlands as
does not show all the soils designated as Inland Wetland. There
may be slightly enlarged cartographically in order to show them at

This map is prepared as a guide to assist town commissions and the
public in identifying the general location of areas that may be
these soils.

occur where the water table is at or just below the ground surface, usually
nearly level or gently sloping. Many of our red maple swamps are on those
