AQUIFER PROTECTION AREAS
Griswold, CONNECTICUT

LEGEND
- Level A Aquifer Protection Area (Final)
- Level A Aquifer Protection Area (Preliminary)
- Level B Aquifer Protection Area (Preliminary)

EXPLANATION

The Aquifer Protection Program, administered by the Connecticut Department of Energy & Environmental Protection (DEEP) and the Department of Public Health (DPH), protects threatened water supplies from contamination. Aquifer protection areas (AQPAs) protect the quality, non-point source pollution, impaired ground water, contaminated lands, and public drinking water supplies by identifying the areas contributing ground water to the well field. The dataset contains regulated areas classified by DEEP, municipalities and the water companies. For example, land use involving agricultural, industrial, and commercial activities are considered hazards to the drinking water supply. This map is intended to be printed at its original scale. The dataset contains the areas contributing ground water to the well field, with each well field identified with the name of the well field. The data is intended to be printed at its original scale. The dataset contains the areas contributing ground water to the well field.

DATA SOURCES

AQUIFER PROTECTION AREA DATA - Aquifer Protection Area digital dataset which combines the digitized data maintained by Level A Aquifer Protection Area Program (Final) and Level A Aquifer Protection Area Program (Preliminary). The data is intended to be printed at its original scale. The dataset contains the areas contributing ground water to the well field, with each well field identified with the name of the well field.

DATA INGREDIENTS - Level B Aquifer Protection Area.

DATA INGREDIENTS - This data is intended to be printed at its original scale.

RENDERING DATA - Data to be printed at its original scale.

SELECTED TOPICS

- Massachusetts Wellhead Protection Areas
- Rhode Island Wellhead Protection Areas
- Aquifer Protection Program
- Level A Aquifer Protection Area
- Level B Aquifer Protection Area
- Level A Aquifer Protection Area (Final)
- Level A Aquifer Protection Area (Preliminary)
- Level B Aquifer Protection Area (Preliminary)

RENDERING DATA - Data to be printed at its original scale.
