AQUIFER PROTECTION AREAS
RIDGEFIELD, CONNECTICUT

LEGEND

Level A Aquifer Protection Area (Final Adopted)
Level A Aquifer Protection Area (Final)
Level B Aquifer Protection Area (Draft)

EXPLANATION

The Aquifer Protection Program, administered by the Connecticut Department of Energy & Environmental Protection, has identified aquifers within Connecticut's high-quality public water supply and public responsibility areas to protect them from contamination by DEEP management and the towns concerned. These areas are located on the map. They are called "protection areas" and are intended to protect the groundwater in the wells and wells that are used at the site of these areas. The protection areas are intended to be used at 1:24,000 scale. The map is developed in stages to show the geographical characteristics of the area.

DATA SOURCES

AQUIFER PROTECTION AREA DATA - Aquifer Protection Areas identified on the map are those from the Aquifer Protection Areas which are shown on the map. The map shows the areas designated as Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Draft). The areas are shown as polygons on the map. The areas are shown on the map as polygons on the map. The areas are shown on the map as polygons on the map. The map shows the geographical characteristics of the area.

STATE AQUIFER DATA - AQUIFER PROTECTION AREA DATA - The map shows the areas designated as Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Draft). The areas are shown as polygons on the map. The areas are shown on the map as polygons on the map. The areas are shown on the map as polygons on the map. The map shows the geographical characteristics of the area.

MASSACHUSETTS WELLHEAD PROTECTION DATA - The Massachusetts Wellhead Protection Areas which are shown on the map are those shown on the map. The map shows the areas designated as Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Draft). The areas are shown as polygons on the map. The areas are shown on the map as polygons on the map. The areas are shown on the map as polygons on the map. The map shows the geographical characteristics of the area.

ARMS ISLAND WELLHEAD PROTECTION DATA - The Rhode Island Wellhead Protection Areas which are shown on the map are those shown on the map. The map shows the areas designated as Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Draft). The areas are shown as polygons on the map. The areas are shown on the map as polygons on the map. The areas are shown on the map as polygons on the map. The map shows the geographical characteristics of the area.

STATE AQUIFER DATA - AQUIFER PROTECTION AREA DATA - The map shows the areas designated as Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Draft). The areas are shown as polygons on the map. The areas are shown on the map as polygons on the map. The areas are shown on the map as polygons on the map. The map shows the geographical characteristics of the area.

AQUIFER PROTECTION PROGRAM - The map shows the areas designated as Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Draft). The areas are shown as polygons on the map. The areas are shown on the map as polygons on the map. The areas are shown on the map as polygons on the map. The map shows the geographical characteristics of the area.

PUBLICLY AVAILABLE DATA - The map shows the areas designated as Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Draft). The areas are shown as polygons on the map. The areas are shown on the map as polygons on the map. The areas are shown on the map as polygons on the map. The map shows the geographical characteristics of the area.

PUBLICLY AVAILABLE DATA - The map shows the areas designated as Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Draft). The areas are shown as polygons on the map. The areas are shown on the map as polygons on the map. The areas are shown on the map as polygons on the map. The map shows the geographical characteristics of the area.
