AQUIFER PROTECTION AREAS
SALISBURY, CONNECTICUT

LEGEND
- Level A Aquifer Protection Area (Final Adopted)
- Level A Aquifer Protection Area (Final)
- Level B Aquifer Protection Area (Provisional)

EXPLANATION
The Aquifer Protection Program, administered by the Connecticut Department of Energy & Environmental Protection, identifies critical areas important to public water supply due to their specific, detailed protection of the ground water they supply or contain. Preliminary mapping is based on extensive, site-specific information about the area and is developed with the most recent available data. Final mapping is based on more comprehensive information about the area contributing ground water to the well field. Final mapping is conducted with the most recent available data. This map is intended to be printed at its original 1:10,000 scale (1 inch = 2000 feet).

DATA SOURCES
AQUIFER PROTECTION AREA DATA - Aquifer Protection Areas shown on this map are from the Aquifer Protection Area digital dataset which contains data associated with the 12 Aquifer Protection Areas in Massachusetts, Level A Aquifer Protection Area (Final) and Level B Aquifer Protection Area (Provisional). This data is from the Massachusetts Department of Public Health Program for Ground Water Protection. This information allows the Department to identify areas where the public water supply is vulnerable to contamination. The data includes areas identified by DEEP as Critical Area and may be protected by the state. Final mapping is based on extensive, site-specific, detailed information about the area contributing ground water to the well field. Preliminary mapping is based on more comprehensive information about the area contributing ground water to the well field.

MASSACHUSETTS WELLHEAD PROTECTION AREAS
- The Massachusetts Wellhead Protection Areas shown on this map were established in response to the Massachusetts Water Pollution Control Act of 1976. The information about wellhead protection in Massachusetts is available from the state land use and water quality. The information is published in December 2016. More information about wellhead protection in Massachusetts is available from www.mass.gov.

MASSACHUSETTS WELLS
- The aquifer protection areas for public water supplies which may be shown on this map were established in response to the Massachusetts Water Pollution Control Act of 1976. The information about wellhead protection in Massachusetts is available from the state land use and water quality. The information is published in December 2016. More information about wellhead protection in Massachusetts is available from www.mass.gov.

AQUIFER PROTECTION PROGRAM - Use of the DEEP website for the purposes associated with the Aquifer Protection Program is restricted. DEEP and GRACED DATA - Use of GRACED DATA for this map and a variety of other uses is the responsibility of the user for the digital spatial data shown on this map.
