NATURAL DRAINAGE BASINS
MAJOR, REGIONAL, SUBREGIONAL AND LOCAL
WATERFORD, CONNECTICUT

LEGEND

- Basin Boundary
  - Major Basin
  - Regional Basin
  - Subregional Basin
  - Local Basin

- Local Drainage Basin Direction:
  - Outlet Direction
  - Main Stream Direction
  - Coastal Direction

ELEVATION CONTOUR DATA - The elevation contour lines shown on this map are from the USGS 1:24,000-scale topographic quadrangle maps. The elevation contour lines are more accurate than those shown on this map. The elevation contour lines shown on this map are more accurate than those shown on this map.

DATA SOURCES

USGS TOPOGRAPHIC DATA - The topographic data used to compile this map was from the USGS 1:24,000-scale topographic quadrangle maps. The topographic data is more accurate than the data shown on this map.

THE EXPLANATION

The map shows the location of natural drainage basins within the state of Connecticut. The map is color-coded to show the different types of basins, including major, regional, subregional, and local. The map also shows the direction of drainage, whether it is outlet, main stream, or coastal. The elevation contour lines are shown in brown and are more accurate than those shown on this map. The map also shows the location of highways, highways, and other drainage features. The map is updated regularly to ensure that it is accurate and current. The source of the data is the USGS 1:24,000-scale topographic quadrangle maps.
