NATURAL DRAINAGE BASINS
MAJOR, REGIONAL, SUBREGIONAL AND LOCAL
BRISTOL, CONNECTICUT

LEGEND

EXPLANATION

The major, regional and subregional drainage basin boundaries shown on this map were manually delineated by interpreting the 10 foot contour lines and hydrography. Drainage basin boundaries are indicated by a multi-colored line. Considerations involved in delineating the basin boundaries included the 50 foot contour lines and hydrography. Considering the topography of the area, the shoreline, and the 50 foot contour lines, the major, regional and subregional boundaries were delineated. The basin boundaries shown on this map may not accurately represent the current topography of the area. The boundaries shown on this map may change with additional research. The boundaries shown on this map are for planning purposes. The boundaries shown on this map are not intended to represent the legal boundaries of these basins. The boundaries shown on this map are not intended to be used for flood control purposes. The boundaries shown on this map are not intended to be used for any construction purposes. The boundaries shown on this map are not intended to be used for any legal purposes. The boundaries shown on this map are not intended to be used for any regulatory purposes. The boundaries shown on this map are not intended to be used for any engineering purposes. The boundaries shown on this map are not intended to be used for any environmental purposes. The boundaries shown on this map are not intended to be used for any economic purposes. The boundaries shown on this map are not intended to be used for any educational purposes.

DATA SOURCES

MAJOR, REGIONAL AND SUBREGIONAL DRAINAGE BASIN BOUNDARIES

The data used to derive this map include the following:

1. 10-foot contour and hydrography data
2. Topographic data
3. Street data
4. Drainage data

The data used to derive this map were obtained from the following sources:

1. U.S. Geological Survey (USGS)
2. Connecticut Department of Transportation (CTDOT)
3. Connecticut Department of Energy and Environmental Protection (DEEP)

The data used to derive this map were digitized from the 1:24,000-scale compilation sheets used to publish the map and a variety of others in PDF format. Visit the CT DEP website to maintain the 1:24,000 scale (1 inch = 2000 feet).
